CARING FOR THE CAREGIVER

Pulmonary Fibrosis Support Group

Spring has sprung! This time of year, many of us put forth a lot of effort into planning our gardens. Paying meticulous attention to the specific needs our flowers and vegetables will require to flourish.

But do we do the same for ourselves and our caregivers?

Let's spend some time this month with **Elaine McDonald, LICSW** from Lifespan Cancer Institute, talking about the unique challenge our significant others/caregivers face when helping a loved one manage pulmonary fibrosis. Let's learn some tools to keep your garden healthy! If able please bring your loved one/support person for this meeting!

Please join us on **April 25th (Thursday) from 1:30PM-3:00PM** at the **Brown/University Medicine building in East Providence**. Patients and caregivers welcome!

Light refreshments provided.

Please RSVP via email by **4/19/19** (RSVP NOT required just helpful to plan refreshments)
